Emergency Appeal for Medicines / Mineral and Vitamin Supplements

Heavy rains and the subsequent floods in Kerala have wreaked havoc in several parts of the state. As houses have been completely water logged and destroyed, many have become homeless and taken refuge in relief camps. They have lost their valuable animals and sheds.

IVA Kerala has responded to crises by sending out emergency teams of vets and medicines / mineral and vitamin supplements to help animals during this time of natural disaster. We want to make sure that we are there on the frontline of animal welfare.

We urgently require your support. By donating medicines / mineral and vitamin supplements, you are ensuring that we are able to uphold our commitment to animal welfare. Your support really does make a huge difference to our work.

Thanks in advance for choosing to support our appeal.

With Warm Regards,

Dr P S Shameem Abubaker,
General Secretary, IVA Kerala
