CONTINUED PROFESSIONAL DEVELOPMENT
Business & Stress Related Activities: CVs

Council resolved to accredit CPD activities related to Stress & Business activities. Providers are invited to submit the activities related to stress and business. Members of the profession can now keep record of these points as part of their structured points. Please refer to the options given in Newsletter 67, November 2011, page 13. As from 2013 members will no longer be required to log points with Council. Please refer to the insert published in Newsletter 64, March 2011, page 17. A random audit of 250 names will take place and the 250 members would have to send in their CPD records for auditing.
CVs of Professors, Associate professors & Emeritus professors will no longer be required from providers.

CPD: STRESS & PRACTICE MANAGEMENT COURSE

The Council’s decision of 25 October 2011 to not accredit courses which related to stress and practice or business management was met with concern from various stakeholders. A new proposal was submitted to Council and members are requested to provide their input on this proposal.

In an attempt to resolve the impasse surrounding the above, the accreditation committee would like to make the following proposals...

1. Re-allocation of CPD points to accommodate practice management and stress management courses. Please note that this DOES not equate to an increased requirement of CPD points!!

2. Exemption from the requirement to provide CV’s.

CVs are not required from associate, full professors or emeritus professors, or from SAVC recognised specialists providing they are presenting CPD submissions in their field of expertise.

Veterinarians may choose one of the following options to fulfil CPD requirements:

<table>
<thead>
<tr>
<th>Structured Points</th>
<th>Unstructured Points</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>20</td>
<td>40</td>
<td>minimum requirements as at present</td>
</tr>
<tr>
<td>30</td>
<td>20</td>
<td>5 of the structured points may be derived from stress related courses &amp; 5 from practice management courses</td>
</tr>
</tbody>
</table>

1st option

<table>
<thead>
<tr>
<th>Structured Points</th>
<th>Unstructured Points</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>40</td>
<td>0</td>
<td>10 of the structured points may be derived from stress related Courses and 10 from Practice management Courses</td>
</tr>
</tbody>
</table>

2nd option

The basis for CPD is that 20 structured points in all options relate to scientific knowledge.

In the first option 10 structured points are exchanged for 20 unstructured points.
In the second option 20 structured points are exchanged for 40 unstructured points.
