PART TIME RESIDENTIAL EQUINE REPRODUCTION SPECIALIST

Pela Graca Friesian Stud in Douglas, Northern Cape seeks the services of a Part Time (3 to 4 months) Residential Equine Reproduction Specialist Veterinarian to perform the following services:

- Friesian Equine Embryo Transfers
- Friesian Equine Embryo Vitrification
- Implantation of Vitrified Friesian Equine Embryo
- Freezing of Friesian Equine Semen
- Artificial insemination with cooled and frozen equine semen
- Bacterial and fungal equine endometritis diagnostic and treatment
- Equine neonatology
- Equine Hyperimmune plasma production
- In vitro and in vivo Equine semen analysis
- Stallion infertility diagnostics and treatments
- Equine Epididymis spermatozoa recovery, analyses, cryopreservation and artificial insemination
- General Equine Veterinary care, including the diagnosis, treatment, prevention of, or advice on a disease, physiological or pathological condition in an animal; surgical or dental operation or procedure on an animal and prescribing or administration of medicine to an animal.

Preference will be given to a candidate who is registered or eligible for registration with the South African Veterinary Council (SAVC). Only candidates with 10 years extensive experience in regards to the above will be considered. Pela Graca Friesian Stud reserves the right not to make an appointment to the post as advertised.

Remuneration will be result based.

CVs and proof of qualifications must be forwarded to Pamela Munro at pamelajmunro@gmail.com no later than 25 November 2015 12:00.

For further information please contact Pamela Munro at 082 712 7849.
