**Vacancy:** Clinical Veterinarian (SANCCOB), SAVC registered

**Main responsibilities:**
- Clinical care of seabirds including diagnosis, treatment, surgery, collection and processing of blood samples, post mortem evaluation, etc.
- Ensuring that SAVC regulations and requirements are met.
- Ensuring that SOPs are implemented and updated.
- Supervision of all aspects of specialist seabird rehabilitation.

Position will be best suited to a veterinarian interested in avian medicine and conservation. Must be physically fit and prepared to work in all weather conditions.

Submit detailed CV and letter of motivation to stephen@sanccob.co.za

**Closing date:** 16 January 2017
