Dear Colleagues

The year 1920 was a special year in the history of veterinary science in South Africa, when both the Faculty of Veterinary Science and the South African Veterinary Association were founded. Next year these events will be celebrated and commemorated as the start of both Veterinary Education and the national veterinary associations. The aim will be to ensure that subsequent developments are also marked and celebrated in the most inclusive way possible. Thus everyone in the veterinary and para-veterinary family is invited to participate and contribute. A website will be created and information provided as arrangements progress. More details will also be given in various publications. Please join our Celebrations.

Regards
Prof Gareth Bath
Coordinator, Centenary Celebrations Organising Committee
