MEDIA RELEASE

The South African Veterinary Council has noted the arrest of two veterinarians involved in the alleged rhino poaching.

The SAVC fully supports the investigation into all illegal activities.

If any registered veterinarians are found guilty of criminal activities an investigation into their professional conduct will follow.

The penalties that the Council may impose if a person is found guilty of disgraceful, improper or unprofessional conduct is prescribed in the Veterinary and Para-Veterinary Professions Act and ranges from a reprimand to the withdrawal of registration to practice as a veterinarian.
